

GET **ACTIVE** For Firearm Safety

Let's have a dialogue about firearm safety:

A

Always secure guns in your homes and vehicles

C

Cultivate responsible behavior

T

Think about the risks of suicide

I

Inquire about unsecured guns in others' homes

V

Voice your concern about gun safety

E

Educate your peers in being ACTIVE

In association with

Firearm Safety Rules:

- Always keep your gun pointed in a safe direction.
- Treat every single firearm as if it's loaded.
- Be sure of what your target is and what is beyond it – keeping your finger off the trigger until it's ready to fire.
- Don't rely on your gun's safety.

Firearm Safety Questions for College:

- What are the campus policies related to firearms? Is there a list?
- Is there campus wide storage?
- If you are 21 or over, have an LTC and live in dorm, are firearms permitted?
- Who's liable if there is a gun-related accident or is lost or stolen?

Firearm Safety Questions:

- Will you or your roommates have firearms?
- Will others join in firearm training?
- Do other risk factors exist, such as someone who might have a bad day and could gain access?
- Does everyone support having a firearm in home?
- What precautions will we take to protect friends?

Voicing Your Concerns:

- Whose gun is that and is it loaded?
- Would you mind storing it without bullets inside and keeping the ammunition separate from it?
- Is the safety on?
- Do you have a safe around here, or at least a cable lock?
- Will you consider securing it so everyone stays safe?

We can't solve the problems if we don't talk about the issues. Let's talk.
